* Details not forthcoming by districts. In all Ajmer-Merwāri they are as follows:—

Persons	2,842
Males	2,521
Females	321

The general decrease in population is due to the famines of the decade, and the malarial fevers, following the famines. The losses were almost entirely among the rural population. Total literates in 1891 exclude "persons under instruction" in this as well as in next table. The fluctuations in the language figures are due to different methods of enumeration. Dialects returned as Mārwāri, Mewāri and Dhundhāri have evidently been largely included in Hindi at the last census. The increase of persons returned as speaking Ajmeri is probably due to more accurate enumeration.

* Details not forthcoming by districts.

Statement No. 8.

Vital statistics—Births of Ajmer-Merwāra.

Years and districts.	Population under registration.	Total number of births registered.	Ratio of births per 1,000.	Highest district rate.	Lowest district rate.	Mean birth-rate of previous 5 years.
1	2	3	4	5	6	7
1881 .. { Ajmer .. 3,59,248	10,493	29·20	50·14	3·26	23·73	
.. { Merwāra .. 1,01,434	2,298	22·63	25·91	18·51	23·60	
1891 .. { Ajmer .. 4,22,350	9,676	22·90	76·85	11·50	21·88	
.. { Merwāra .. 1,19,999	1,890	15·75	20·11	10·75	18·03	
1901 .. { Ajmer .. 3,67,453	5,769	15·70	29·41	5·67	30·02	
.. { Merwāra .. 1,09,459	1,910	17·45	30·33	12·59	40·23	
1902 .. { Ajmer .. 3,67,453	12,915	35·23	49·37	23·11	26·29	
.. { Merwāra .. 1,09,459	4,262	38·94	44·92	33·64	34·81	

The decrease in the 1891 and 1901 figures is due to famine. The high figures of 1902 point to a reaction, consequent upon returning prosperity and probably also to improved registration.

Statement No. 9.

Vital statistics—Deaths of Ajmer-Merwāra.

Years and districts.	Population under registration.	Total number of deaths registered.	Ratio of deaths per 1,000.	Highest district rate.	Lowest district rate.	Mean death-rate of previous 5 years.
1	2	3	4	5	6	7
1881 .. { Ajmer .. 3,59,288	8,856	24·65	30·83	5·47	26·13	
.. { Merwāra .. 1,01,431	1,803	18·66	27·71	15·10	22·05	
1891 .. { Ajmer .. 4,22,359	9,315	22·05	77·31	11·46	18·51	
.. { Merwāra .. 1,19,999	1,657	13·81	22·16	8·92	16·05	
1901 .. { Ajmer .. 3,67,468	19,619	31·34	62·30	13·85	49·91	
.. { Merwāra .. 1,09,459	3,170	29·04	36·47	22·71	58·05	
1902 .. { Ajmer .. 3,67,453	12,220	33·26	62·44	17·28	50·42	
.. { Merwāra .. 1,09,459	3,452	31·54	30·78	20·25	58·48	

The largely increased death-rate in 1901 and 1902 was due to the severe fever epidemics which followed the great famine.

Area cropped more than once	14,087·4	20,168·8	10,808·4	18,630·1	7,970	12,332	
Net area cropped during the year ...	1,12,708·1	70,519·0	1,07,350·7	69,591·5	1,04,314	66,418	

Under "culturable but not cultivated" are included the figures for current fallows.

The decrease in the total area shown in 1891-1900 is due to the new survey of the districts in 1882-84, by which the errors of the previous survey were corrected. Fluctuations are in general due to good or bad seasons.

Statement No. 12.

Live-stock, ploughs and carts in the Kâlsâ area of Ajmer-Merwâra.

Salt ..	25	5	29	11	18	6	22	3	12	11	13	5	11	7	12	8	11	15

In 1873-1880 the average for salt has been worked out on 3 years, and in 1881-1890 on 6 years, as the figures for the other years are not forthcoming.

Since the introduction of the railway the prices in the province depend more upon the harvests in the Panjab and the United Provinces of Agra and Oudh than upon local conditions. The prices during the acute famines have therefore not been omitted in striking the averages for this Statement. The effects of the general famines throughout India may be seen in the prices for 1890-1900 and in 1902-03.

The grain prices in Merwāra are generally lower than those in Ajmer.

Statement No. 13.

Part B.—The prices of certain food grains according to the 20th Issue of the Prices and Wages Volume from the Government of India for Ajmer from 1873-1900 and for 1902.

PARTICULARS.	AVERAGE FOR 1873-1880.		AVERAGE FOR 1881-1890.		AVERAGE FOR 1891-1900.		1902.	
	Seers.	Chittaks	Seers.	Chittaks	Seers.	Chittaks	Seers.	Chittaks
	1	2	3	4	5	6	7	8
Wheat	...	14	12	15	4½	12	12½	12
Barley	...	22	1	22	14½	19	12½	16
Joár	...	19	14½	22	3½	19	11½	16
Rajra	...	17	14½	18	1	16	11	15
Maize	...	21	1½	22	13½	20	14	17
Salt	...	29	132	13	7½	12	6½	12
								8

In this statement the period of acute famine (1899-1900) is omitted in obtaining the average for the decade 1891-1900. The height of the prices notwithstanding shows the succession of poor and indifferent seasons since 1891.

Statement No. 14.

The average monthly wages (in rupees) of skilled and unskilled labour in the Ajmer district.

YEARS.	1	Able-bodied agricultural labourer.	Syeo or horse keeper.	Common mason, car- penter and blacksmith.
		2	3	4
1873	...	7	6·5	7·5 to 13·5
1881	...	3 to 4	5 to 8	10 to 20
1891	...	3 to 4	5 to 8	10 to 15
1902	...	4·60 to 7·5	5 to 8	7·5 to 15

Wages have shown little tendency to rise along with the increase in prices. Those for unskilled labour have been dominated by the ruling wages upon relief works, which is scientifically calculated from a basis representing the subsistence minimum of the workers.

Statement No. 15.*Factories of Ajmer-Merwāra.*

Remittances sent to other treasuries in Rs.	...	1,09,18,150	1,66,37,091

The figures for Ajmer and Beawar Railway stations alone are given as they are the chief places of export and import. As statistics of road-borne trade are not available, no complete statement of exports and imports is possible for the districts.

The figures for 1881 and 1891 have been taken from the Administration Reports. Those for 1902 have been supplied by the Chief Auditor and Accountant, Rājputāna-Mālwā Railway.

Decrease in exports of cotton in 1902 is due to restrictions placed on export from Mewār to Mērwāra which, although removed in 1900, have since affected trade.

Figures not forthcoming.

Statement No. 17.

Mileage and cost of the metalled and unmetalled roads in Ajmer-Merwāra.

YEARS.	MILEAGE OF METALLED AND UNMETALLED ROADS.			COST OF MAINTENANCE OF METALLED AND UNMETALLED ROADS IN RUPEES.			Remarks.
	Imperial	Local Fund.	Municipal.	Imperial	Local Fund.	Municipal.	
	1	2	3	4	5	6	7
1891	187	304 $\frac{1}{2}$	26 $\frac{1}{2}$	27,495	9,495	2,035	
1901	187	308 $\frac{1}{2}$	29 $\frac{1}{2}$	47,914	3,261	5,025	
1902	187	308 $\frac{1}{2}$	29 $\frac{1}{2}$	18,112	13,191	2,712	

The small expenditure on Local Fund roads during 1901 is due to the fact that many of the roads were repaired by famine labour charged to Imperial Funds. In 1902, a year of local scarcity, the Local Funds undertook extensive repairs with a view to relieving distress by employment of labour.

Statement No. 18.

*Expenditure incurred during the famines of 1891-92 and 1898-00,
in Ajmer-Merwāra.*

Heads of Expenditure.	1891-92.		1898-00.
	1	2	3
Relief works (including establishments, dependants, kitchens and hospitals)	12,37,890	31,87,000	
Civil kitchens	2,00,000	
Village relief (gratuitous and home labour)	1,02,739	1,28,000	
Poor houses	75,000	
Civil establishments, contingencies, etc.,	25,757	71,000	
Remission of Land Revenue	46,685	390	
Suspension of Land Revenue	1,03,714	4,81,423	
Advances under the Land Improvement Loans' Act, XIX of 1883	3,39,775	1,91,842	
Advances under the Agriculturist's Loans' Act, XII of 1884	2,69,079	2,58,050	
Miscellaneous	8,000	
Amount given from the Indian Famine Charitable Relief Fund under object IV	1,64,161	
Total ...	21,25,689	47,64,866	

In 1891-92 the cost of village kitchens and poor-houses is included in the figures for "Gratuitous relief." They were used to a very limited extent, and cost only Rs. 434 and Rs. 3,394 respectively.

Of the Land Revenue suspended during the 1898-00 and the 1900-01 famines, Rs. 2,55,000 were remitted later.

LEGISLATION AND JUSTICE.

Statement No. 19.

Criminal Justice—Work done by Courts in Ajmer-Merwāra.

Decrease under most heads of income in columns 3 and 4 is due to the famines of the period 1891-1902. Opium receipt consists of duty on

Receipts.

cheats exported principally to the Punjab. From 1880-81 to 1903 only estimated figures of value of salt consumed (Rs. 1,50,000) have been entered. The excise figures for 1902-03 shown here do not tally with those in Statement No. 29. In this total—which is according to Financial Statement No. 42—certain balances from the preceding years have been included.

Assessed taxes.—In 1880-89 the average was worked out on 10 years, but Income Tax only commenced in 1886-87. Increase in income from "Interest" in 1902-03 is on account of interest from takāvi advances made during the famine.

"Miscellaneous" include Customs, Registration, Police, Medical, Pensions, Stationery and Printing, Post Office, etc. In 1902-03 the receipts from Customs were Rs. 13,035, but as in the preceding two decades they averaged below Rs. 10,000 they have been included under "Miscellaneous."

Incorporated Local Funds include the District Fund, Dispensary Fund, Pound Fund and *Patwār* Fund. The increase in 1902-03 is due to the inclusion of the recently sanctioned Government grant of Rs. 23,000 towards the *Patwār* and District Funds, and to the recovery of cesses suspended during famine. Excluded Local Funds include the Nasīrābūd Cantonment Fund, Police Clothing Fund, Police *Chanda* Fund, *Chankidāri* Fund, Rājputāna Veterinary School Fund, Rājputāna Native Hospital Assistants' Reserve Fund, and the Mayo College Fund. Increase in Municipal Funds is due, among other causes, to an increasing population and the raising of limit of octroi refunds.

Expenditure.

For several years in the decade 1880-90 "Law and Justice" figures were included in "Land Revenue." Hence partly increase in the former and decrease in the latter in the succeeding decade. "Interest" is on account of promissory notes. The item commenced from 1889-90, so there was only one year on which to calculate the 10 years' average.

"Superannuation Pensions, etc."—The amount is shown under this head since 1892-93 only.

"Public Works."—These figures are shown separately only since 1883-84. Recent increase is due to famine works.

"Miscellaneous" includes Meteorology, Stamps, Excise, Assessed taxes, Registration, Post Office, Opium assignment, Minor departments, Stationery and Printing, Customs Administration, Civil Works and Settlement charges. Settlement charges, amounting to Rs. 25,000, were only incurred between 1882 and 1884.

The large arrears for 1891-92 and 1892-93 in Ajmer, and in 1891-92, 1892-93, 1893-94 and 1894-95 in Merwāra were due to the famine of 1891-92. The great famine of 1898-1900, and the famine year of 1901-1902 in Merwāra are responsible for the out-standing balances of recent years. The remissions of 1902-03 may be noticed.

Before 1894-95 the annual fixed revenue from *istimrārdārs* was Rs. 1,24,734-9-11. In that year Rs. 10,000, paid annually by Shāhpurn Durbār, were, under the sanction of the Government of India, transferred to the head "Tribute," as paid by other Native States in Rājputāna. The annual fixed demand is now Rs. 1,14,734-9-11.

In the Merwāra villages the Land revenue is fixed : they are only variably assessed in respect of the water revenue. The Ajmer villages, shown as variable, have a variable land revenue, which may or may not be combined with a fixed or variable water revenue. Of the 61 variable villages shown in this Statement 24 have since been given a fixed assessment,

LAND REVENUE.

Columns 2, 3, and 4.—Fluctuation due in general to level of prosperity among the people.

The opium farm and vend fees are now for the whole district instead of only for municipal and cantonment areas, as before introduction of the opium rules in 1900.

Column 5.—Now only forfeitures are entered under "Excise" revenue. Fines inflicted by magistrates are credited to "Law and Justice."

Column 6.—Denotes the distillery rent and establishment charges realized from the contractor. The "Sadar" distillery system was introduced in 1887.

Column 8.—Figures shown up to 1885 are on account of sums due to Märwär-Merwāra and Mewär-Merwāra. The present settlement was made with Mewär in 1881-82 and with Märwär in 1885.

Total Expenditure ...	1,36,344	1,84,286	1,56,913

Loans include Rs. 2,18,000 borrowed from Government in 1892 for the Foy Sagar water scheme and Rs. 20,000 borrowed in 1897 towards payment of compensation for land taken up for the same tank.

On the side of income under "other sources" are included conservancy receipts (other than taxes), fees from markets and slaughter-houses, miscellaneous sales and income from garden produce. Under "Expenditure on administration and collection of taxes" the largest item is octroi refunds.

The high average of capital expenditure on water supply and drainage between 1891-1900 was due to the construction of the Foy Sagar reservoir during the period.

Under "other heads" of expenditure the chief items are interest on loans, repayments of loans and expenditure on public gardens.
